Four Fish Released in 2010, Four Fish is a non-fiction book by Paul Greenberg that explores the state of the commercial fishing industry and the problems that arise when demand outpaces supply. Greenberg makes this large-scale issue easier to understand by looking at it through the lens of four particular fish: cod, salmon, bass, and tuna. Four Fish : NPR July 9, 2010 " When Paul Greenberg started fishing as a kid in the '70s, he didn't have to think twice about dwindling wild fish populations. That was before the world nearly doubled its fish consumption. Four Fish is Greenberg's investigation into the future of the last wild food.
